The Nutcracker

The Canton Ballet The Nutcracker Page 1 of 33 Updated 2/2016

Welcome to the Ballet!

Dear Teachers,

Thank you for attending the ballet *The Nutcracker*. Canton Ballet first danced *The Nutcracker* in 1980. The company's new production of the ballet, with choreography by artistic director, Cassandra Crowley, Carol Hageman, and choreographer in residence, Angelo Lemmo, was first performed in 1990 and has introduced thousands of Northeast Ohio children to the magic of ballet. I'm sure the ballet dancers, dressed in their colorful costumes, entertained and delighted the school children as the story of *The Nutcracker* was told through dance, music, scenery and props.

To extend and follow-up on today's performance, activities for use within the classroom are included in this guide. These activities have been aligned to the Ohio Fine Arts Academic Standards for Dance, Music, Visual Arts, and Language Arts. I am very proud of the work that educator, Penny Hare, has done to assemble such a fine study guide.

The Canton Ballet team of dancers, teachers, and administrators welcome you to the world of ballet, and we look forward to seeing you at our all-new performance of *Cinderella* in March.

Cassandra Crowley Artistic & Executive Director of Canton Ballet

About the Artistic & Executive Director Cassandra Crowley

Under the direction of Artistic and Executive Director, Cassandra Crowley, the School of Canton Ballet is known as one of the finest preprofessional dance schools in the United States. Ms. Crowley places strong emphasis on staff development, and her guidance assures the highest caliber of training for future professional dancers as well as for those who simply love the art of dance.

A native of Tacoma, Washington, Cassandra Crowley joined the Canton Ballet in 1980. In addition to a master's degree from Butler University, Ms. Crowley has a strong international background. She spent five years dancing in England, France, and Slovenia where she worked with traditional European masters and performed roles ranging from the Sugar Plum Fairy in *The Nutcracker* to major roles in *Swan Lake, Romeo and Juliet, and Sleeping Beauty*. Among her teachers were Jan Collum, Robert Joffrey, Richard Englund, Peggy Dorsey, and Maria Fay.

Cassandra is founder and director emeritus of Regional Dance America, a member of Regional Dance America/Northeast, on the board of directors of Young! Tanzsommer and a former member of the Board of Directors of OhioDance. She has also served twice on the dance panel of the Ohio Arts Council.

The Nutcracker

A Synopsis of the Story

In **Act I**, it is Christmas Eve in the 1850's at the Stahlbaum home. On the street outside, Uncle Drosselmeyer weaves through the crowd of vendors, street urchins and children carrying packages to Christmas parties. The guests begin to arrive, and the party gets under way with the guests exchanging gifts and dancing. Drosselmeyer's magic tricks delight the children, but he has even bigger mysteries in store for Clara. He gives her a wonderful Nutcracker doll! When brother Fritz breaks the doll while playing with it, Drosselmeyer uses his magic skills to repair it. The guests say their goodbyes and the family retires for the night. Clara leaves her Nutcracker downstairs under the tree.

As midnight approaches Clara steals downstairs to find her beloved Nutcracker, but Clara is not alone. Gigantic mice threaten her from every side, and she faints. When she comes to, she finds herself and the house under a spell. Drosselmeyer reappears in a swirl of his cape to set the stage for the magic to come. Everything is growing, even the Nutcracker, who becomes life-sized. The mice return to terrify Clara, but the Nutcracker rallies the toy soldiers to rescue her. As the battle reaches its peak, Clara's compassion for the Nutcracker ensures victory over the Mouse King, and Nutcracker is transformed into a handsome Prince. He invites Clara on a journey through the glittering snowy forest to the Land of Enchantment. Guided by the Snow King and Queen, they set off on a magical sleigh ride.

In **Act II**, Clara and the Prince arrive in the Land of Enchantment where the Sugar Plum Fairy and her Cavalier greet the travelers.

The grand festival begins, with dancers from many lands entertaining Clara and the Nutcracker Prince. Each dance is a gift of gratitude that Clara will carry with her forever. Her visit to the Land of Enchantment culminates with a Grand Pas de Deux danced by the Sugar Plum Fairy and her Cavalier.

Christmas Day dawns on the street outside the Stahlbaum home. Clara awakens in her living room; was it all a dream? Can it be? She rushes to her father who gives her, ever faithful, her Nutcracker Prince.

Getting Ready for the Performance

The advanced dancers that you saw in *The Nutcracker* train 6 days a week, 10 1/2 months of the year. They may dance up to 40 hours per week - as much as a full time job! Most have been studying ballet for 5-10 years.

Rehearsals for this year's *Nutcracker* began in October and continued three to four times a week until the performance. Canton Ballet Company dancers started with "The Dance of the Snowflakes" and the Snow King and Queen's pas de deux (dance for two). Then they learned all the other dances and finally, the "Waltz of the Flowers." In the meantime all of the children in the school found out what their parts would be and started to practice once a week or more.

The Party Scene is rehearsed in stages. At first each group came separately (Party Adults, Party Girls, and Party Boys), and later they all came at the same time. By mid November the major scenes were assembled. The dancers began using the props for their character, adding an entirely new dimension of difficulty to their work. Some began to practice in their masks. It can be very hard for the Nutcracker Prince and the Mouse King to see through the eyeholes sometimes.

Several weeks before the performance, the dancers tried on their costumes, and the Wardrobe Mistress adjusted them to fit each person. The week before the performance dancers began wearing their costumes for rehearsals. Nothing is left to chance onstage.

The week of the performance, the dancers went into the theatre with the lighting designer, technical director, and stage crew. Each cast practiced in full costume onstage, under the lights. They learned where to enter and exit for each of their parts.

The morning of the performance, dancers arrived two hours before the performance was to begin. They began with an hour long warm up class followed by a short rehearsal of anything that was needed. The Sugar Plum Fairy and the Cavalier tried some of their lifts. The Wardrobe Mistress gave them their costumes, and they began to put on their makeup, prepare their hair, and lay out their costumes and props for the performance.

Ten minutes before the performance was scheduled to begin, the dancers came onstage ready to perform. They were excited and nervous but very happy to have a chance to perform for you.

Theatre Etiquette

When you enter the theatre, you are entering a very special place. In the theatre anything can be true. Your imagination is free to soar and magical things can happen.

Going to the theatre is different from going to a movie. The people performing for you have worked very hard to prepare the best possible performance. The costume and wardrobe people, the technical director, lighting designer and stage manager, the artistic director and choreographer, as well as the dancers, have all done their part to make a good performance for you. They are eagerly waiting to see whether you like and appreciate their work.

Please laugh or clap with your hands to show your appreciation,

but...

- Please **NEVER** scream, whistle, boo, or stomp your feet.
- Please do **NOT** talk to your neighbor during the show. It is distracting to the dancers, and you won't be able to hear the beautiful orchestral music.
- Please sit still and stay in your seat from the beginning of the performance until the intermission. It is not courteous to the dancers to get up and walk out during the performance.
- On not eat during the performance. The sound of rustling wrappers and the smell of the food disturbs the dancers and others around you.
- Of course, cell phones and pagers must be turned off, and no electronic devices may be used during the performance.

The people who have worked so hard ask for your undivided attention while they present the performance for you.

Canton Palace Theatre History

A standing room only crowd welcomed the opening of Harry Harper Ink's million dollar vaudeville and movie palace in downtown Canton, Ohio, in 1926. The Theatre was a gift to the community from Canton entrepreneur and industrialist businessman, Harry Harper Ink. He owned the Canton based Tonsiline Company, makers of a cough syrup formula marketed in a unique giraffe-shaped bottle. The two giraffe plaques located above our proscenium arch are reminiscent of this motif.

The Theatre was designed by the noted Austrian born architect John Eberson of Chicago. The Palace seeks to re-create a Spanish courtyard on a midsummer night. Its ceiling, a starry sky with wisps of clouds, creates a dream effect. The Palace still has our original cloud machine that makes the clouds continuously march across the sky. Peter Clark designed the original lighting system to take viewers from sunrise to sunset in the courtyard setting.

The 1960s and 1970s brought about a period of neglect and decay to Canton's downtown area. Businesses and stores migrated to the suburbs, and the growing popularity of television affected the Palace's regular patronage. The theatre's doors were locked to the public, and its marquee darkened on its 50th anniversary in 1976.

Just one week before the structure was doomed to a wrecking ball, the Canton Jaycees stepped forward to act as the holding organization until a search committee could be formed to see if there were enough people interested in making The Palace Theatre a viable business once again. Rescued by a group of concerned citizens and the City of Canton, the Palace was held in trust until The Canton Palace Theatre Association could be formed.

The building reopened in 1980, and the restoration of the theater has been ongoing since.

To date, approximately \$4.0 million has been spent to restore the building.

Today The Palace is once again a live vital multipurpose entertainment facility. Its marquee burns brightly sixty feet above Market Avenue, welcoming you to enter its grand foyer and become a part of Canton's nostalgic past and its bright future. The majestic Palace Theatre is once again the heartbeat of the Canton community and plays host to over 300 events per year with an attendance of over 100,000 per year.

Write opinion pieces on topics or	Goals/Objectives: Students will respond to the presentation of <i>The Nutcracker</i> by writing a review of the performance.					
texts, supporting a point of view with reasons.	Background Information: There are a variety of careers in dance besides performing as a dancer. One of these careers is that of a dance critic. The role of the critic is to explain in writing what he/she saw and experienced at the					
Dance Standards, Grade 5, 1RE, ① Discuss personal	performance. This may include an interpretation of the dance, emotional response to the dance, as well as evaluation of the dance. (See article below for an in depth discussion of the role of a dance critic.)					
reactions to dances viewed or performed and consider how these are informed by	This activity gives students the opportunity to express their first reactions to the dance presentation. Provide a non-judgmental atmosphere where the students will feel confident to give their first reactions and where all students' reactions will be accepted.					
cultural and social influences	Methods/Procedures:					
	 Before attending the performance, discuss the role of a dance critic as a career. A short sample of an article written by a dance critic is cited below. This is a critique of Zachary Catazaro, New York City Ballet dancer, and an alumnus of Canton Ballet. You may read parts of the article and discuss with your students if this was a positive or negative critique. Other sample dance reviews may be located in Dance Magazine or local newspapers, etc. Several reviews can be found online at http://www.nutcrackerballet.net/html/nutcracker_reviews.html Discuss the type of information found in the reviews. Ask students to "put on their dance critic hats" as they watch The Nutcracker and to be prepared to share their impressions of the performance. After the performance discuss the students' first impressions of The Nutcracker by asking questions such as: What moments in the dance did you like most and why? How did particular moments in the dance make you feel and why? Who was your favorite dancer and why? What costume did you like best and why? How did the music or sound-score make you feel? Was the choreography visually interesting? Was there a story? 					

Ohio's New Learning Standards	Activity
Standards	**Tollowing the discussion, students will write a review of the performance. The first paragraph should state their opinion, followed by logically ordered reasons for their opinion. Encourage students to express reasons for their opinions using linking words and phrases (e.g., because, therefore, since, for example) to connect opinion and reasons. The article should then be ended by providing a concluding statement related to the opinion presented. **Resources:** "Confessions of a Dance Critic."* http://pointemagazine.com/inside-pt/issuesdecember-2011january-2012confessions-dance-critic// "Nutcracker Reviews."* <http: www.nutcrackerballet.net="">. Reading Standards for Literature, Gr. 5, #2 Determine a theme of a story including how characters in a story respond to challenges; summarize the text.	Dancing Narrative Goals/Objectives: The learner will apply strategies and skills to create oral, written, and visual texts. The learner will understand that dance can create and communicate meaning. Methods/Procedures: Proview the story of The Nutcracker by reading the book to the children. See bibliography in appendix. After reading have students determine who, where & when, what happened, and how the story ended. Use four sheets of paper to list the student's ideas. (Who on one piece, what happened on the second, etc.)
Dance Standards, Gr. 5, 5PR Use formal and informal compositional structures in choreography and improvisation	 Ask students to show a slow movement that might look like the "who" from the book. Do the same for the when & where, what happened, and how the story ended. When students have figured out what movements they have chosen, tell them that they are now going to do them in order. Let them know that what they are creating is a dance sequence. Pull out the drum and tell them you are going to play the drum for 8 beats while they do the "who" part. Do the same for each part of the story. Practice putting all the parts together to tell the story of <i>The Nutcracker</i>. Resources: "A Color of His Own."

Music Standards, Grade 5,	 Journeying into the Land of Enchant Romantic Composer Reports
#2CE Listen to, identify, and respond to music of different composers, historical periods and world cultures. Identify, listen to and respond to music of different composers Writing Standards, Grade 5, #2 Write informative/explanatory texts to examine a topic and convey ideas and information clearly.	Goals/Objectives: Students will research and report on the life of Piotr Ilyich Tchaikovsky and/or other Romantic composers. Background Information: The Romantic period included many influential composers such as Johannes Brahms, Frederic Chopin, Antonin Dvorak, Edvard Grieg, Franz Liszt, Franz Schubert, Piotr Tchaikovsky, and others. During this period composers expanded existing musical forms and developed new forms as a way of expressing themselves. Thus, a huge variety of instrumental and vocal music appeared on the scene. It was during the Romantic period that most of the band instruments came into being as they are today. The invention and widespread use of valves on brass instruments and new key systems on woodwind instruments made them much easier to play, encouraging composers to write more music for them. Methods/Procedures: ① Tchaikovsky was a composer during the Romantic Era. ② Using the list of composers on the following website, students can choose a composer from the list to research. Students may also work in pairs or small groups for this project. http://www.52composers.com/romantic-composers.html ② Using the "Composer Questionnaire" in the Appendix, students can research various aspects of the composer's life and work. ② Use the "Composer Report" guidelines in the Appendix to guide the students through the writing process. ② Provide the resources to allow students to listen to various compositions of the composers. Include pictures and sound clips of the compositions.

Ohio's New Learning Standards

Science, Gr. 5, Strand (PS - Sound)

People enjoy music because of the **sound** produced by various instruments. Using the **scientific process**, students will design and conduct a scientific investigation, develop explanations and predictions to determine the effect of the size of strings on the pitch of a musical instrument.

Activity

The Science of Strings

Goals/Objectives: Children can use the scientific method to explore the connection between size and materials used to create a musical instrument.

Background Information: This lesson introduces students to the instruments of the string family. Students learn the types and parts of string instruments, and then create their own "string" instrument. Students make predictions and explore how pitch is altered based on the width and length of the string.

Methods/Procedures:

- Review the members of the string instruments. If available show examples of a guitar, violin, etc. See resources for available websites to both view and hear various stringed instruments.
- Pose this question to the students, "How does string width determine pitch of the instrument?" Elicit various "hypotheses" from the students and write the following on the board:

If our hypothesis is true then the pitch created should be:

higher —or— lower when the rubber band is: wider —or— thinner

- ① Distribute small boxes (cigar, checkbook, children's shoes, tissue...) and rubber bands of various widths to the students.
- Have groups conduct an experiment in which they test the hypothesis, using three wide rubber bands and three thin rubber bands.
- ① As a class, discuss findings and create a conclusion.
- Property Repeat the activity using the following question, "How does string length affect the pitch of the instrument?"
- Distribute boxes of varying sizes along with rubber bands of the same size. Have students test their experiment by stretching the rubber bands to different lengths around the boxes and comparing the pitches. Discuss findings and create a conclusion.

Curriculum Connections

Visual Arts

Ohio Fine Arts Academic Standard for Visual Arts

Visual Art Standards, Grade 5, #1PR, #2PE

- Integrate observational and technical skills to strengthen artmaking.
- ① Identify and communicate how historical and cultural contexts influence ideas that inform artists.

Activity

Creative Nutcrackers

Goals/Objectives: Children will research the history and art of making nutcrackers, then design and create their own unique nutcracker.

Background Information: According to German folklore, nutcrackers were given as keepsakes to bring good luck to your family and protect your home. The legend says that a nutcracker represents power and strength and serves like a trusty watch dog guarding your family from evil spirits and danger. A fierce protector, the nutcracker bares its teeth to the evil spirits and serves as the traditional messenger of good luck and goodwill.

Materials:

- Empty Pringles Potato Chip Can
- Felt
- ② Craft fur or cotton for hair (optional)
- ① Tacky craft glue or low temp hot glue
- ② Rubber bands to help hold things in place
- Yarn, ribbons, braids, trims, feathers, buttons, fabric paint, etc. (optional)
- Thin cardboard to extend the hat beyond the top of the can, cereal boxes do well, optional

Methods/Procedures:

Step 1 - Cover the Can

Cover the can with bands of felt for the shoes/boots, pants, jacket, face, and hat. If necessary, glue an extra tube of cardboard to the top of the can (overlap it an inch) if you want to make your nutcracker taller.

Use rubber bands, if necessary, to hold the felt on while the glue is drying.

Step 2 - Add Details

- ① If you are going to use fabric paint for some of the details, add it last, so that it won't get smudged.
- Make a line down the center of the legs with yarn or a thin strip of felt.
- Arms and hands can be made of rolled tubes of felt. If you are adding trim on the jacket, put the trim on before adding the arms.
- ① Felt, craft fur, fiberfill or cotton can be used for the hair.
- Out a rectangle out of skin-tone felt for the nutcracker's mouth.

Ohio Fine Arts Academic Standard for Visual Arts	Activity
	Braid, ribbons, or strips of felt can be used to decorate the nutcracker, along with buttons, feathers, beads, etc. Look at the pictures of nutcrackers for ideas as to where you can put trim - this illustration is a very simple one. Your imagination is the limit. How about 'nutcracker' boys, girls, kings, queens, or even a Santa? Resources: "History of Nutcrackers." www.nutcrackermuseum.com/history.htm>

Language Arts

Ohio's New Learning Standards	Activity				
Writing Standards K-5, Gr. 5, #3 Write narratives to develop real or imagined experiences or events using effective technique, descriptive details, and clear event sequences.	Clara's Journal Goals/Objectives: The student will write a journal entry from the viewpoint of Clara or other characters from The Nutcracker. Background Information: Many people keep diaries, an account of a person's daily activity. A diary allows an individual to express his or her emotions and feelings on paper. Diaries are very personal and are often used by historians as they compile biographies. Methods/Procedures: Preview the story of The Nutcracker by reading the book to the children. See bibliography in appendix. After reading, talk with the students about the characteristics of a journal entry and what people include in a journal entry. Discuss some of the events Clara might have included in her journal entry and how she felt. Using the handout, "Dear Journal," allow the students to write a journal entry from Clara's viewpoint, Drosselmeyer's viewpoint, or Fritz's viewpoint.				
Reading Standards for Literature, Gr. 5, #9 ① Compare and contrast stories in the same genre on their approaches to similar themes and topics.	Goals/Objectives: Students will construct a Venn diagram to compare and contrast two versions of "The Nutcracker." Background Information: The Nutcracker ballet is based on the story "The Nutcracker and the King of Mice" written by E.T.A. Hoffman. When Marius Petipa had the idea to choreograph the story into a ballet, it was actually based on a revision by Alexander Dumas, a well known French author. His version reflects more of what we have come to love as the The Nutcracker ballet. Methods/Procedures: Study the fairy tale of The Nutcracker by reading two different versions: E.T.A. Hoffman's "Nutcracker and Mouse King" and "The Nutcracker of Nuremberg" by Alexander Dumas, or other modern versions of The				

Ohio's New Learning Standards	Activity				
	 Nutcracker. Draw a Venn diagram on a board or chart. Ask students to identify one thing that was different between the stories. Ask students to identify one thing that the stories have in common. Challenge students to continue the work the class has started. They might work on their own, with a partner, or in small groups to list on the Venn diagram work sheet least five things in each of the three areas of the diagram. Compare/contrast these stories to Canton Ballet's version of The Nutcracker. Resources: The Nutcracker Venn Diagram (see appendix) Hoffman, E.T.A. "The Nutcracker and the King of Mice." Dumas, Alexander. "The Nutcracker of Nuremburg." 				
Writing Standards K-5, Gr. 5, #3 Write narratives to develop real or imagined experiences or events using effective technique, descriptive details, and clear event sequences.	Reinventing The Nutcracker Goals/Objectives: Students will write their own version of The Nutcracker. Background Information: There are many versions of the ballet called The Nutcracker. In The Nutcracker, the theme is the power of imagination and creativity. The ballet tells a story to develop this theme. Clara, the girl in the story, goes to an exciting party, meets interesting people, and receives a wonderful gift. Then we watch as, in her dreams, her imagination weaves together all these experiences to take her on an amazing journey. All The Nutcracker versions tell this basic story – but they tell it in various ways. Methods/Procedures: ① Research & discuss with students other versions of the ballet The Nutcracker. For example: Omaha Ballet – the story takes place in Omaha in the 1920's. Some of the things Clara imagines take place in the world of Hollywood movies because in the '20's movies were very new and exciting. Pittsburgh Ballet Theatre – this version takes place in Pittsburgh in the early 1900's. The snow scene is danced to a backdrop of Mt. Washington, which overlooks the city. Clara is whisked off to an old fashioned amusement park, rather than the Land of Enchantment.				

Ohio's New Learning Standards	Activity				
	Clara's Dream: A Jazz Nutcracker- This jazzed up version features Clara who discovers her own place in the world through the magic of jazz music and dance. She seeks to find her way through a Christmas party and a family nightclub scene. She is joined by leaping snowflake-children, an African drummer who also dances, body-percussionists, Lindy hoppers as well as Irish, jazz and tap dancers. Brainstorm various settings and how they would change the characters, backdrops, costumes and dances in the ballet. What would a Canton Nutcracker story look like? Ask the students to write their own version of the Nutcracker, using their own character, places, and events.

The Canton Ballet

Ballet and Football

(An Introduction to Ballet)

Imagine what it would be like to watch a football game for the first time if you didn't know a single thing about the game. Not only would you be confused, you probably wouldn't enjoy it very much.

Watching a football game is a lot more fun if you know something about how the game is played, if you know the rules, and have an understanding of what kind of training and practice the athletes need to perform well. It's even more fun if you have tried playing football yourself. The same is true of watching ballet.

Ballet is a way of telling a story using music and movement instead of words. The "language" of ballet consists of patterns of movement that have developed over centuries.

Ballet began as ballroom dancing in the courts of Italy and France about 400 years ago. It is based on a response that is natural to all human beings – the desire to move our bodies when we hear music. Like all sports and forms of dance, ballet takes movements we are familiar with - running, jumping, balancing and lifting - and uses them in a very particular and formalized way.

The most notable feature of ballet technique is the outwardly rotated position of the feet and legs, called turn-out. Proper turn-out begins at the hips. The thighs and knees are well turned-out, and the feet and ankles do not roll forward. Turn-out is acquired gradually as a dancer's muscles gain strength and develop through careful training and practice. A good turn-out allows the dancer to

move freely in all directions with grace and ease.

Although there are hundreds of steps and positions in any single ballet performance, each of them begins and ends with one of the five basic positions of the feet. The five basic ballet positions are:

The Canton Ballet The Nutcracker Page 17 of 33 Updated 2/2016

First Position

Heels together, toes turned out

First position opened up, with the heels as far apart as the length of the dancer's own foot

Heel of the front foot touching the instep of the back foot, toes of both feet equally turned out

Fourth Position

Heel of the front foot opposite the toe of the back foot, feet parallel and separated by a space the length of the dancer's own foot, toes of both feet equally turned out

Fifth Position

Feet closed together, the heel of the front foot touching the toe of the back foot. A perfect fifth position requires perfect turn-out and is very difficult to achieve.

The Canton Ballet The Nutcracker Page 18 of 33 Updated 2/2016

Another technique characteristic of ballet is dancing *en pointe*. Dancing *en pointe* means dancing on the tips of the toes. The first ballerina to do this was the famous dancer Marie Taglioni in 1832.

To dance *en pointe*, dancers wear special shoes made of fabric stiffened with glue. Although the shoes are stiffened, they do not hold the dancer up on her toes; her muscles do that. Most girls are about 12 years old before they have enough strength and training to begin dancing *en pointe*. It is important that young dancers do not try to go *en pointe* until their ankles and feet are strong enough. Usually only girls dance *en pointe*.

Dancers who perform ballet on stage are highly trained. They often begin studying dance at the age of eight or nine, or even younger. While girls lean to dance *en pointe*, boys who study dance must be very strong in order to perform high jumps and turns and to lift their partner in the air. The training of male dancers includes weight lifting and other exercises to build upper body strength.

To pursue ballet as a career, a person must be talented and athletic, very hardworking, and dedicated to the art. As many people who aren't professionals enjoy playing football and other sports for fun, many people, children and adult, study ballet just for enjoyment. Taking ballet classes is an excellent way to gain physical fitness while developing grace, poise, and agility. Many football players and other pro athletes take ballet classes to improve their balance, rhythm, coordination and flexibility. The Cleveland Browns, for example, have taken dance class with the Cleveland Ballet when the Cleveland Ballet existed as a ballet company in Cleveland.

Personal Information: (Answer **all** of the following questions.) Composer's Name:_____ What period of time was he from? _____ When was the composer *born*? Where was the composer *born*? When did the composer *die*? Where did the composer die?_____ How did the composer die? *Music Training:* (Answer **2** of the following 3 questions; use another piece of paper if necessary.) Where did the composer learn his music?_____ What was the composer's childhood like? _____ What other composers influenced this composer's development? How?

The Canton Ballet The Nutcracker Page 26 of 33 Updated 2/2016

General: (Answer 2 of the 3 following questions; use another piece of paper if necessary.) Name something special or one interesting fact about this composer.
Describe the composer's family.
Travels he made as a musician.
Life as a musician: (answer both questions)
What was this composer most famous for in his life? (playing piano, writing music, etc.
What jobs did this composer have as a musician? (Who did he work for? Where? Why? When?)

The Canton Ballet The Nutcracker Page 27 of 33 Updated 2/2016

What kinds of music did this composer write? (symphonies, piano miniatures, etc. How many?) What are some of this composer's most famous pieces? (Name at least 3.) Name at least 3 pieces that you listened to. Which was your favorite? Why? *Bonus (any of the following)* Find a selection of the composer's music on the internet. Title of selection _____ Location: http:// Find a picture (graphic) of the composer on the internet? Site title:____ The Canton Ballet The Nutcracker Page 28 of 33 Updated 2/2016

The Music (answer all 4 questions)

Composer Report

You've studied music history!
You've researched a composer!
Now, you're ready for the last and most important step!

You're going to write a report about your composer! (Maybe you can talk your teacher into a Power Point instead!)

Using your completed "Composer Questionnaire" and a computer, you will type up your final report. Use the following guidelines to give you the best success.

CONTENT: Your report will consist of approximately **five paragraphs**.

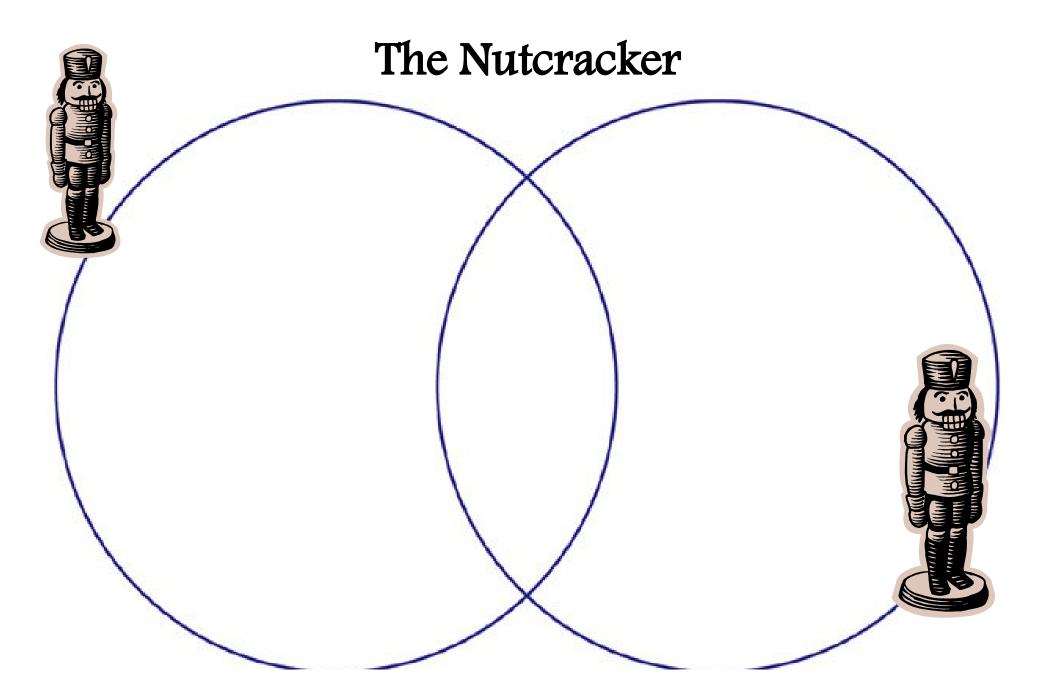

- 1. The first paragraph acts as an introduction, and will be **General Information** about your composer. This paragraph might include interesting facts and information about his life as an adult, and is used to interest your reader in your composer.
- 2. The second paragraph will be **Personal Information** about your composer. It will include when and where he was born, when, how, and where he died.
- 3. For the third paragraph, you have a choice. You may write about the composer's **Musical Training** or about his (her) **Life as a musician**. Look at the information you have for each section. Choose the section that you think will make the best paragraph. If they are both very good, you may decide to include both.
- 4. The fourth paragraph is the most important and talks about **The Music**. Here you will tell the reader about the music that the composer wrote, including styles and most famous pieces.
- 5. The fifth paragraph is your conclusion and you should recommend a piece of music that you liked, and tell why you liked it. (If you managed to find a MIDI example of this music, we may even be able to include it on the internet!)

STYLE: Your report should have the following sections:

- 1. A **Title Page** should be on the front of your report. This should be a separate sheet by itself. It needs to include the composer's name and your names. If possible you should also include a picture of the composer. (If you found a picture of your composer on the internet, you can copy it directly into your report. Ask your teacher how.)
- 2. The **Body** is where the content of your report is (check the 5 paragraphs above). This section should also by typed in normal letters. There should be no headings between the paragraphs.
- 3. At the end, you should have a separate page title **Sources**. This page should list the books you used, the internet sites you visited, and where to find any pictures or MIDI files you have used.
- 4. You will be marked on **spelling** and **grammar**, so make sure that you have checked everything very carefully.

About the compiler/editor:

Penny Hare, taught students from Kindergarten to age 80. Besides working as an elementary teacher and reading specialist, she developed technology programs for K-12 at Lake Center Christian School in Hartville, OH and for Canton City Schools' Choices Alternative School. Many of her teaching years were devoted to Adult Basic Literacy Education, GED, and transitioning adults to post secondary education.

As a "ballet mom" for 15 years she witnessed first hand the benefits of the arts and ballet training for young people and turned to promoting its benefits by serving as Secretary and President of The Canton Ballet Board of Trustees.

This curriculum guide represents the intersection of two worlds to which she has devoted her time and efforts. Her wish is that classroom teachers will use this guide, along with their own creativity to encourage a love and respect for the high quality arts programs that exist in our community.
